

Mountain View Health Unit Sets Budget At \$40,727.00

The first meeting of the board of the Mountain View Health Unit No. 7 was held in Didsbury on Thursday, November 29, and those present included C. Fox, Crossfield; T. Miller, Olds; W. H. Metz, Didsbury; D. Gillan, Bowness; Dr. Baster, director of rural health units, Edmonton; Dr. F. J. Lishman, M.O.H., and Ed Kinloch, Didsbury.

The quarterly report of the Rosebud Health Unit was read and discussed before new business was commenced.

The budget for April 1, 1952 to March 31, 1953 was drawn up and the sum of \$40,727 will be needed to operate the unit for the year. Of this amount the provincial government will contribute 60 per cent and the districts 40 per cent.

Cost per head to operate Mountain View Health Unit for the year figures out at \$1.36, and the district's share of this is 54c.

Lease of a building to house the office at Bowness was approved by the Board, as well as the purchase of a refrigerator to keep vaccines.

Approval of the addition to the staff of Miss Moxley as stenographer-technician for the Bowness office was also given by the Board.

A communication from the Town of Bowness asked that Dr. Lishman be appointed as town medical officer of health, and this was agreed to by the Board.

C. Fox and W. H. Metz were appointed a committee to arrange satisfactory liability insurance for the Unit.

ZELLA NEWS NOTES

The next card party will be held at the home of Mr. and Mrs. Edward Walcott on Thursday, December 13, when the turkey donated by Mrs. Vic Snyder will be raffled.

Mr. and Mrs. Wilbur Jahneke and family of Camrose moved to Didsbury this weekend to reside for a few months in the Lucas house.

Correction—The name in the congratulatory item in last week's issue should have read Myra Olson instead of Alean as printed.

Will Carter Featured In Maclean's Magazine

Will Carter, the singing cowboy, who considers Calgary his hometown, is credited with making more records than any man alive including Bing Crosby.

In the December issue of Maclean's Magazine, June Calloway tells the slow-but-sure success story of Carter who rode the range in Alberta long before he lassoed himself more than a million cowboy-music fans in Canada, Australia and the United States.

The first time he rode a boxcar to the Prairies he was thirteen. He found he was too small for cowboy deeds so he went back home. But in 1924, Miss Calloway writes, at 23, he again went west, this time to stay.

Carter initiated Pete Knight, a Calgary Stampede rodeo's champion in two songs, "Pete Knight King of the Cowboys" and "Pete Knight's Last Ride." Thanks to Knight he became one of the best cowboys in the business, and they rode the rodeo circuit together.

The first time he applied for a radio job the Calgary station manager who listened to him told him to return to the prairie. Miss Calloway reports. He was a cowboy for several years.

Shortly after Carter moved to New York in 1934 he was drawing more fan mail than anyone on CBS, which broadcasts his program to more than 250 stations. Today, writes Maclean's, he makes \$25,000 a year.

Whist Drive Provides Reading For Veterans

A good crowd attended the whist drive held at the J.R. McDonald home on November 29, and an enjoyable evening was had by all. The ladies first prize went to Mrs. M. Rodney, and the consolation to Mrs. A. Shannon. Men's first prize was won by Bob Collinge, and the consolation by Mr. G. Innes. The Jack of Diamonds seemed very lucky throughout the evening, and nearly all the 24 players won one or two of the travelling prizes.

Proceeds of the party will go toward the renewal of magazines started in 1948 for the disabled, and which fell due in March 1952. Seven dollars was taken in.

The flowers sold by Mr. Burke during the summer brought \$45.80, and thanks is extended to all who brought flowers to sell as well as those who bought flowers. Also many thanks to Mr. Burke and his helpers.

The sum of \$108.29 is on hand, but over \$100 more is needed.

Funeral Services For Mrs. W. Wilson Today

Funeral services for Mrs. Wm. (Sarah) Wilson, who passed away Sunday, December 2, will be held in Knox United Church, Didsbury, on Wednesday, December 5th, at 3:30 p.m., with Rev. C. C. Armstrong officiating. Interment will follow in the Didsbury cemetery with Didsbury Funeral Home in charge of arrangements.

Mrs. Wilson was in her 72nd year and had been ill for some time. She recently left the local hospital and went to live with her daughter, Mrs. Wm. Summers west of town, where she passed away Sunday.

Born in Silkeverth, England, she moved to Three Hills 36 years ago, and has resided in Didsbury and district for the past ten years. Surviving are her husband, William, two daughters, Mrs. William Summers, Didsbury; Mrs. T. Crabb, in England; three grandchildren; and one sister and three brothers in England.

This little fellow's first name is STANLEY, but Los Angeles police don't know his last name or where to find his parents. The three-year-old was left with Mrs. Carrie Mary Nelson, 61, at her suburban home by an unidentified woman. A few days later, Mrs. Nelson died. The mother has never returned. Now Stanley lives at Juvenile Hall, passing the lonely hours with a nameless pup who arrived under similar circumstances.

ANOTHER INCREASE TO PAPERS GOING TO UNITED STATES

H. Morgan, local postmaster, has advised the "Pioneer" that effective immediately copies of papers mailed to the United States, Mexico, Central and South America will be subject to an increase in postage of one cent per copy. This increase in postage necessitates a rise in the subscription price of the paper to the above countries by another \$5.00 per year, making the new rate \$3.50 per year to the United States.

Incidentally, a number of subscribers are in arrears to the Didsbury Pioneer. Please check the label on your paper and if it reads December 1951, or prior, your paper is in arrears and an early settlement would be appreciated. Can we count on your co-operation in this matter without having to send out special notices reminding you of your expiry date?

AGRICULTURAL SOCIETY TO MEET ON DECEMBER 14th

A meeting of the directors of the Didsbury Agricultural Society will be held in Reiter Brothers Office on Friday, December 14, at 2 p.m.

As it is planned to dissolve the Agricultural Society in Didsbury, a full attendance is necessary before any final decision is made.

SHOWER AT SPRINGSIDE FOR MISS CLARA McDONALD

The Springside Group gathered at the J.R. McDonald home on Saturday, December 1st, for a surprise shower party in honor of their daughter Clara.

Contests were played and Mrs. Ray Fischer was the lucky winner of a lovely plum pudding provided by Mrs. Innes.

After Mrs. J. Bothers made the presentation of many lovely gifts to the bride-to-be, the bride's sister, in-law-to-be, assisted in opening the gifts.

A happy "chit chat" during lunch ended the shower within as well as the shower outside.

Slow Down When You Enter Town

Motorists entering Didsbury from all roads leading into town should have no excuse for breaking the speed limit—and we understand that Constable Dobbin intends to enforce the law.

On Monday new speed limit signs, setting the speed limit at 25 miles per hour, were put up on the hospital corner, the south road, the blind line and the south-west corner of the town limits.

These signs are of the reflector type, using "scotch-lite" lettering and are quite visible at night, as well as in the daytime.

And a word to the younger boys and girls—these signs cost money and if you damage them in any way no effort will be spared to bring you to justice, and prosecution will surely follow.

ON CIVIL DEFENCE

(By Mrs. H. Lynne Stauch)

ARTICLE IX

Atomic bombs may be exploded on the ground, under water, or in the air. The airburst explosion causes more widespread, though less severe damage than the others, and was used against Hiroshima and Nagasaki.

The bombs were dropped from an aircraft and were timed to explode about 200 feet above the targets. When they exploded, a ball of fire illuminated the sky and gave off a dazzling flash of light and a scorching wave of heat. Various radioactivity rays were emitted and reached the target instantly, followed by a terrific blast.

The point directly below the explosion is called ground zero. The blast enveloped and crushed houses within a radius of one mile of ground zero, and caused lesser damage to buildings up to 2 1/2 miles away. The direct effects of the blast on persons and things were very close to ground zero were less than one might expect. Most of those injured were of a secondary nature and caused by falling man, flying debris, and broken glass.

A large percentage of the casualties and injured could have been avoided if the people of these two cities had known what to do.

A later article will deal with heat flash and radiation.

CIVIL DEFENCE FILMS

The Civil Defence Library at Edmonton has the following films available for distribution:

Name	Running Time
The Atom Strikes	28 minutes
Operation Crossroads	28 minutes
German Ai Rocket	28 minutes
Tale of Two Cities	13 minutes
Survival Under	
Atomic Attack	10 minutes
Self Preservation	12 minutes
Defence of Peace	12 minutes

The above films are available on loan to municipalities, one at a time, on an immediate return basis. This arrangement is necessary due to limited supply.

Requests for films should be made well in advance of the date they are required and an alternate choice should be listed in case the film asked for has been previously booked by some other municipality.

LIFE IS WORTH LIVING

Life can be worth living, and men, individually and in groups as a nation and as mankind, can find a satisfying purpose in it. Perfection and unchanging bliss are impossible and undesirable, but in the search for them we have romance, adventure, and the delight of doing things. Like Shakespeare's Hamlet, we can be "Happy in that we are not unhappy; On fortune's cap we are not the very button".

We have made the word "progress" include a whole system of philosophy and politics. The civilization of our century allows the average man to partake lavishly of an abundance of things. He is surrounded by marvellous machines, healing arts, fatherly governments and comforting privileges of all kinds.

Should he become self-satisfied. It will be time for man to raise the question whether he and his culture are threatened with degeneration. Civilization does not emerge under unusually easy conditions of life. This is a law confirmed by paleontology and bio-geography: human life has arisen and progressed only when the resources it would count on were balanced by the problems it met with.

Well what about atomic power? It promises abundance as readily as desolation, but only on the condition that we solve the problem of its use. The solution involves the setting up of a principle and its embodiment in deeds. From some men and nations this will demand a healthy change from destructive impulses to constructive thinking.

—Royal Bank News Letter

FIRE PRECAUTIONS

A.E. Bridges, Provincial Fire Commissioner, today issued a special appeal to householders in which he listed some fire precaution reminders.

Mr. Bridges asked parents not to leave their children alone in the home because of the danger of fire. Also, special care should be taken to ascertain that all heating apparatus is safe. Recent fires reported showed that poorly installed and overheated stoves and pipes had led to fires, and where loss of life had occurred, this had been due to children being left alone.

"It isn't possible for the provincial fire inspection staff to visit all homes and point out conditions that are likely to cause fires," Bridges said. "But we and the municipal fire services make available information on fire prevention."

He listed the following precautions:

1. Stoves burning solid or liquid fuel should be installed 18 inches from any frame wall. If closer, the wall can be protected by a bright metal reflector, placed two inches out from the wall and extending beyond the stove on each side. A stove should never be closer than six inches to a wall even with protection.

2. Stovepipes should be vented directly into the chimney and be nine inches clear of frame partitions and 18 inches from the ceiling.

3. Extra precautions must be taken when walls or ceilings of rooms are of an easily inflammable material.

USE THE CLASSIFIEDS

TO MOVE PATIENTS INTO NEW RED CROSS HOSPITAL JAN. 14

Patients will be moved into the new Alberta Red Cross Crippled Children's hospital in Calgary the week of January 14, according to an announcement by Geo. C. Lancaster, chairman of the hospital building committee.

The move has been delayed until the New Year owing to extensive Christmas preparations which could not be disrupted. It was decided that if the patients couldn't be moved before December 5, occupation of the new hospital would have to be postponed until January.

A few of the departments will move ahead of the children. The brace shop will be installed in its new location immediately after the New Year and the laundry and X-ray equipment will be moved a week ahead of the patients.

The actual date for the children to be moved has not been made public as hospital officials believe that too much excitement would upset the children.

Occupation of the new hospital has been delayed several times since its official opening on March 3. Early in the summer moving of the patients was delayed pending a survey of the hospital and the grounds on which it stands by two engineers of the engineering department of the University of Alberta.

The survey was a precautionary measure as cracks had been appearing in the walls and hospital officials wanted to be sure that the hospital was in first-rate condition before being used.

Slow delivery of equipment, wrong equipment and damaged machinery also held up occupation.

Now the hospital is all ready to go. First started in February, 1948, the building was first envisioned 12 years ago when the present building was found inadequate for the needs of the crippled children in Alberta.

NO CHRISTMAS FOOD BONUS

Britain's Minister of Food, Gwilym Lloyd George, has announced that there will be no special Christmas food rations distributed this year.

WEDDINGS

PATTON-OLSEN

A quiet but pretty double-ring wedding took place at the home of Mr. and Mrs. Henry Luft on Wednesday, November 21, at 2:00 p.m., when Myra May Olsen, only daughter of Mr. Ralph Olsen of Didsbury, became the bride of Mr. David Leslie Patton, son of Mr. and Mrs. Murry Patton of Rocky Mountain House.

Rev. E. B. Fox officiated.

The bride wore a chocolate brown gabardine suit with pale yellow accessories, and a corsage of pink rose buds.

Miss Marion Luft, cousin of the bride, was bridesmaid and she wore a dress of turquoise rayon tulle and rich touches of rayon velvet, and a corsage of red and yellow gardenias.

The groom was attended by Mr. Laverne Neufeld. A reception followed with the bride's table centred with a two-layer wedding cake, and the toast to the bride was proposed by Rev. E. B. Fox.

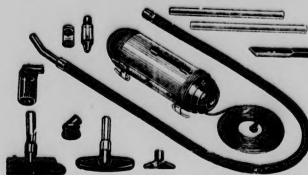

Guests were Mrs. E. B. Fox, Mr. Ralph Olsen, Mr. and Mrs. Andy Patton of Nanaimo, Mr. and Mrs. J. A. Hindal of Red Deer, Mr. and Mrs. Gus Bittner, Mrs. Nina Toppin, Mrs. Eva Hindal and Mr. and Mrs. Ed Hindal.

GOOD NEWS FOR CHRISTMAS COOKS

Canadian dinner tables will touch a new high in Christmas luxury this year, with most of the traditional food items in the best supply since pre-war, according to the Financial Post.

From turkeys to nuts, almost everything associated with the old-time Christmas feast will be readily available. Prices, well, here and there a little bit higher, in a couple of instances lower. For those who prefer a duck or goose, the Christmas bill will be five cents a pound less than last year. Easier shortening and account prices will help hold the Christmas baking costs down.

G-E VACUUM CLEANER

The back-breaking job of sweeping floors by hand is a thing of the past. The new General Electric VACUUM CLEANER does a speedy clean job on rugs, furniture, drapes... into deep corners and close to furniture. All you do is guide it. You will find that regular use of your G-E Cleaner will prolong the life of your furnishings. Housecleaning will be easier for you and the health of your family will be further safeguarded.

TOUGHER FINANCING

Weakening of bond prices is expected to be a considerable brake on Municipal and Provincial borrowing and on capital expansion in these fields, warns the Financial Post.

One of the largest groups immediately affected is Ontario Hydro. But scores of municipalities throughout Canada are either going to have to pay higher rates for their money or else drop expansion and development plans. When credit turned tight and interest rates started to rise in Canada earlier this year, a number of cities and provinces turned to the U.S. market as an alternative source of funds. Many of them were successful. Recent figures show that as of November 12, about \$240 million of financing had been carried out so far this year by Canadian provinces: \$70 millions by municipalities.

M.V.B.C. NEWS

Gospel Team work is giving our students much to do these days. A Faculty Committee has organized the students into a number of teams. These young people accept appointments in churches that can be reached on Sunday morning, undertaking to teach Sunday school classes, give object lessons for review, sing and preach for the regular services of the day. Mr. James Macdonald and Miss Iris Schmitt have been designated as the student directors of this activity.

The Tabernacle was very comfortable indeed last Saturday night when students for Christ held its services with the Robinson Group in charge. It was estimated that approximately 450 people were present. Heating this large building has been a great task and those who did the work certainly should be commended.

A group under the direction of Mr. G. Lyle Richardson made their way to Asessok and Valley on Saturday. Theirs was a busy Sunday as they made their way from one appointment to the other. They returned Sunday evening.

Students are busy with Christmas activity too. Counting the days until they can be at home again certainly brings the smiles, and we are glad to have it so, for we know they will take up their studies again when they return with the same enthusiasm.

SHIPBUILDING BOOM

Down slupways of Canada's Great Lakes shipyards in the next few weeks will slide 70,000 tons of new shipping, as much as built in Canada's yards in some full years since the end of the war.

That's the highlight of a boom year for the Canadian side of the Great Lakes shipping—a boom that sees many yards, virtually idle since the end of the war, now going all-out on new building; should see by year's end both yards and freight handlers chalking up "busiest-year-ever" records.
